Re: Hosston Zone, Reservoir A  
LOGANSFORT FIELD, DeSoto Parish, Louisiana

Dear Commissioner Asprodites:

Application is hereby made on behalf of **EOG RESOURCES, INC.** for the calling of public hearings, after ten (10) days legal notice, to consider evidence relative to the issuance of an Order pertaining to the following matters relating to the Hosston Zone, Reservoir A, in the Logansport Field, DeSoto Parish, Louisiana, for which rules and regulations were established and drilling and production units were created for the exploration for and production of gas and condensate by the 28-R and 28-S Series of Office of Conservation Orders, including the units designated HOSS RA SUG and HOSS RA SUR:

1. To permit EOG Resources, Inc. to drill, designate and utilize its Hollingsworth No. 1 Well as alternate unit well for the HOSS RA SUG, in the Logansport Field, at the location shown on the plat attached hereto and made a part hereof, in exception to the spacing provisions of the 28-R and 28-S Series of Office of Conservation Orders.
2. To permit EOG Resources, Inc. to drill, designate and utilize its Preston No. 1 Well and its Cobb No. 3 Well as alternate unit wells for the HOSS RA SUR, in the Logansport Field, at the locations shown on the plat attached hereto and made a part hereof, in accordance with the spacing provisions of the 28-R and 28-S Series of Office of Conservation Orders.
3. To find that these wells are necessary to efficiently and economically drain a portion of the reservoir covered by each unit which cannot be so drained by any existing well within such unit.

April 12, 2001

Page 2

4. To permit the operator of the HOSS RA SUG and HOSS RA SUR to produce the unit allowable in accordance with the provisions of Office of Conservation Order No. 28-S-55, effective October 18, 1994 (at a rate equal to the combined rate at which the unit well and the alternate unit well or wells located on each unit are capable of efficiently producing).

5. Except to the extent herein designated, to continue in full force and effect the provisions of the 28-R and 28-S Series of Office of Conservation Orders, the units created thereby, and applicable Statewide Orders.

6. To consider such other matters as may be pertinent.

The Hosston Zone, Reservoir A, in the Logansport Field, DeSoto Parish, Louisiana, was previously defined in Office of Conservation Order No. 28-S, effective April 21, 1970.

The proposed alternate unit wells, in conjunction with the existing unit wells and alternate unit wells for each unit, are necessary to efficiently and economically drain the reserves underlying those portions of the reservoir covered by the respective units, will not adversely affect the adjacent offsetting units, and are needed to satisfy the market demand for gas and condensate from the field. Therefore, the applicant is requesting permission to drill, designate and utilize the aforementioned wells as alternate unit wells for their respective units.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal and a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Shreveport District of the Office of Conservation. However, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

Finally, enclosed herewith is our check on behalf of the applicant made payable to the Office of Conservation in the amount of \$1,400.00 representing the required hearing application fee.

Very truly yours,

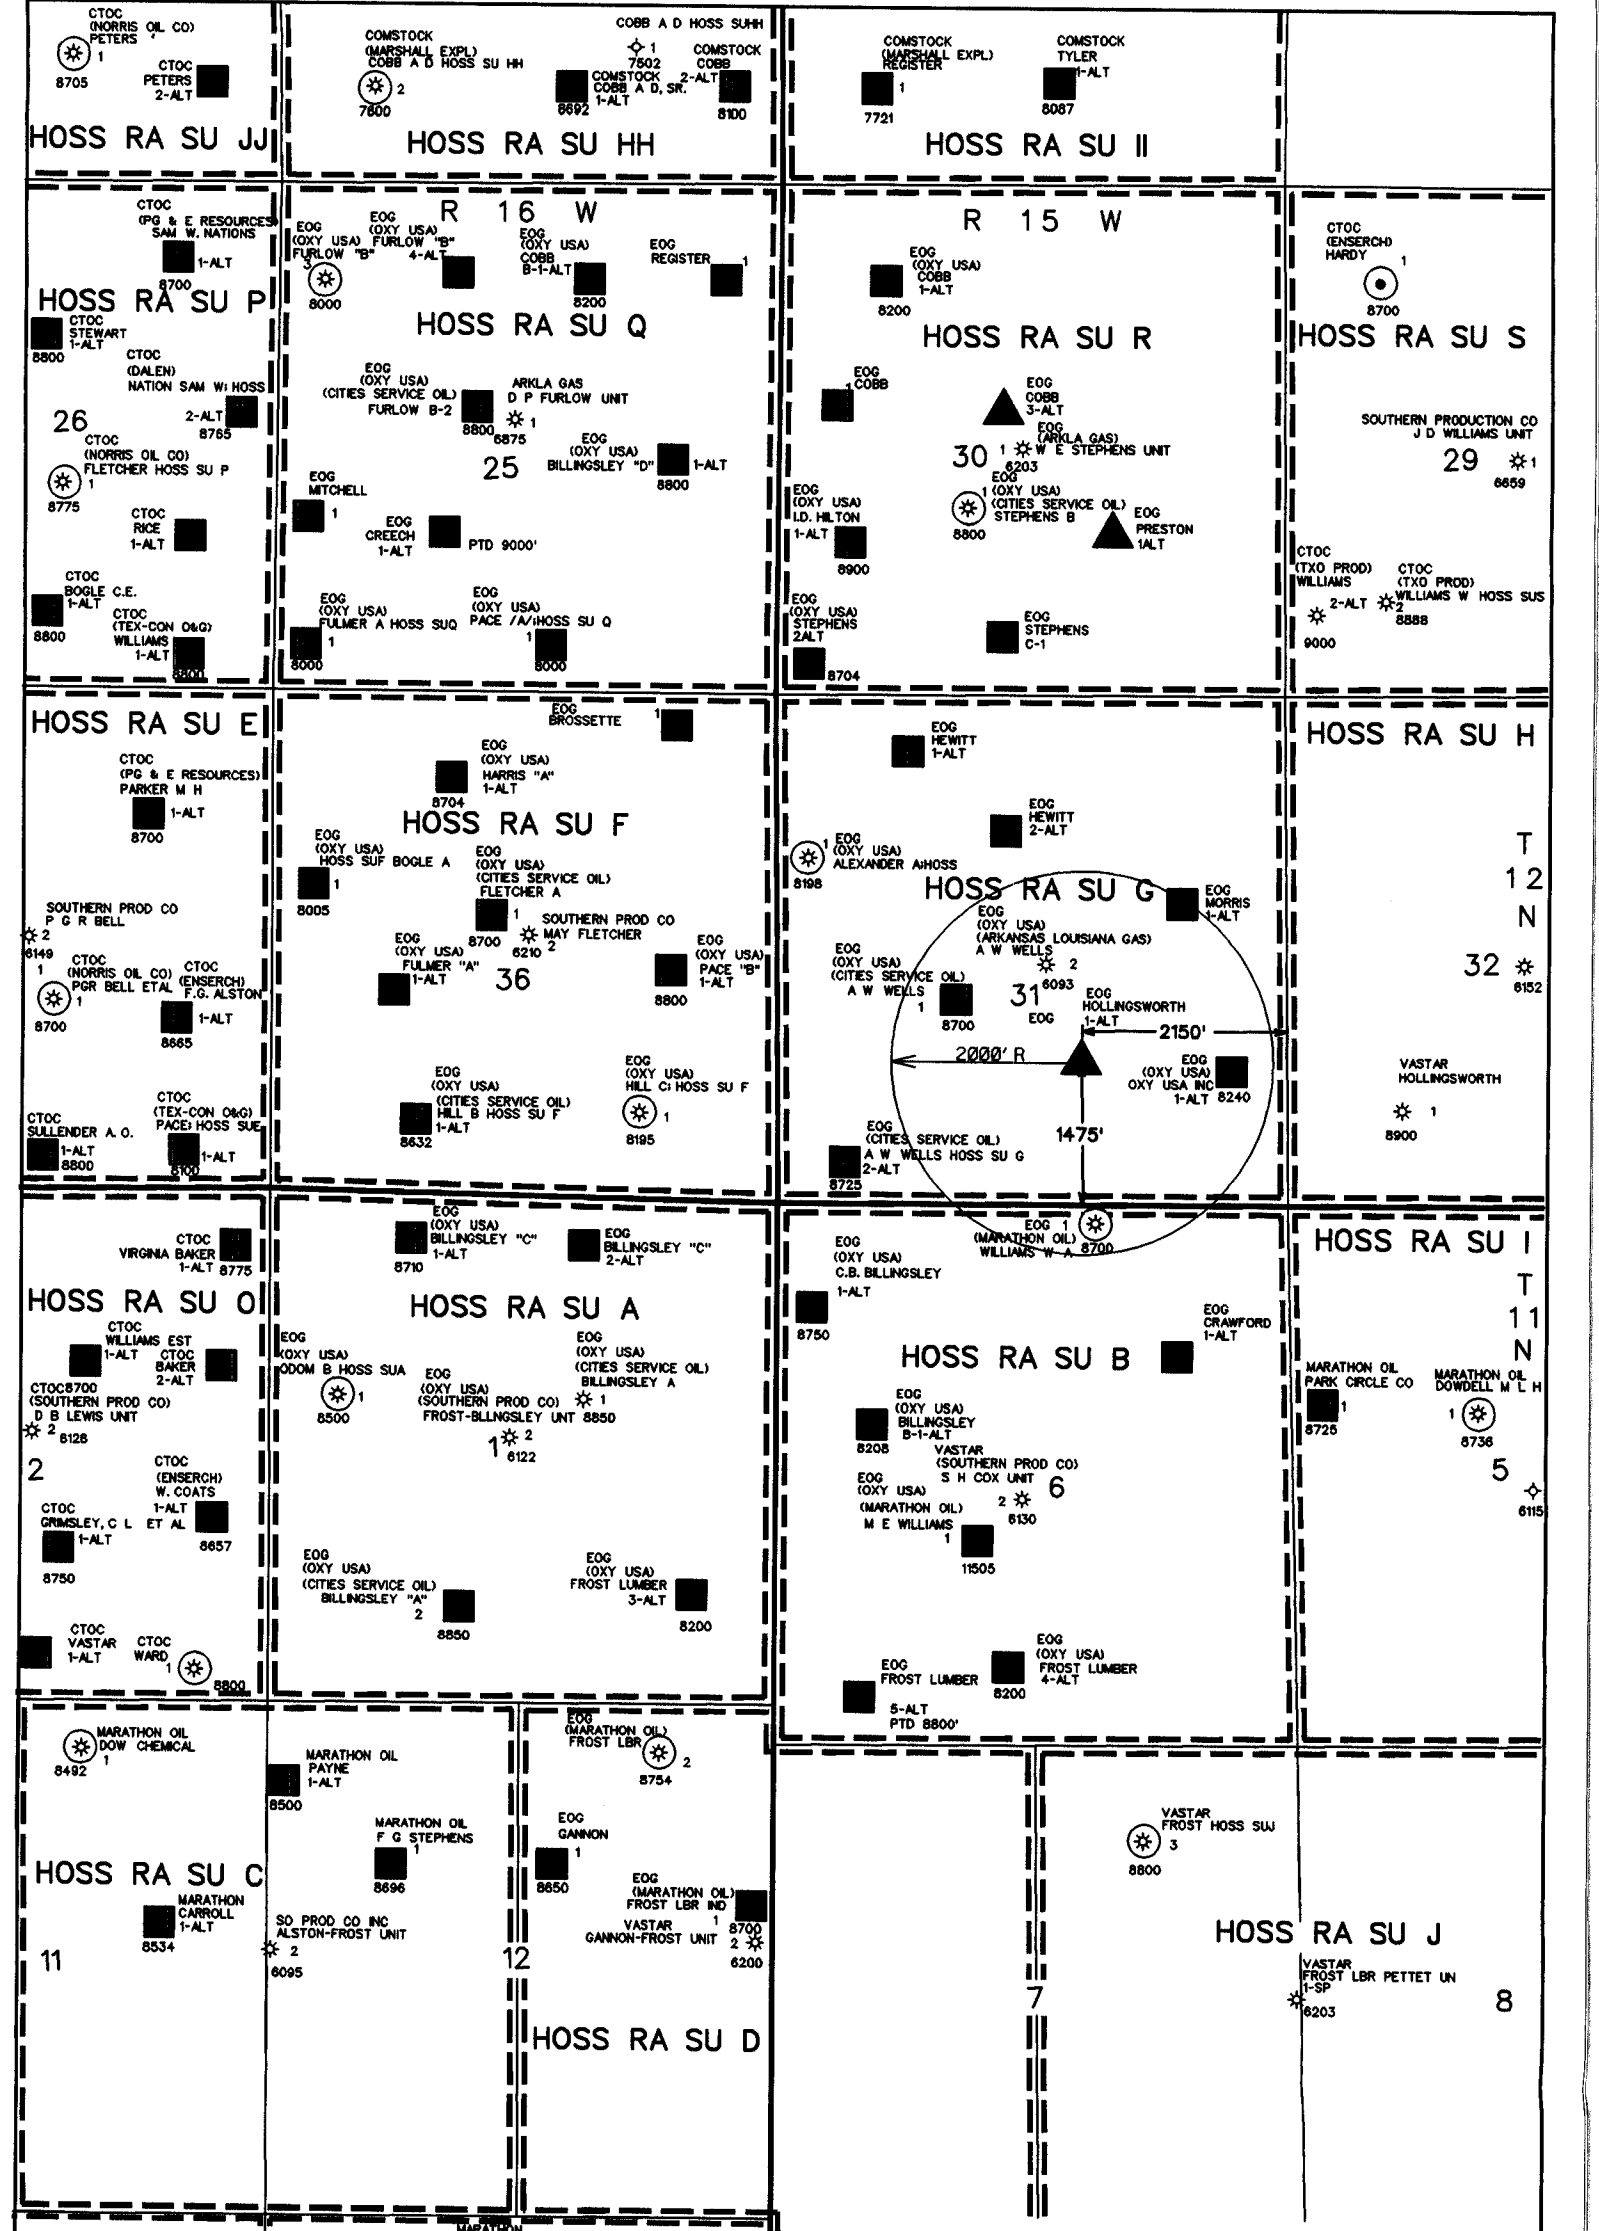

Richard W. Revels, Jr.
